EXPERIENCE

Frontend Developer - Full Time

Jan - 2022 – Jan- 2025

Avrut Solutions

Gujarat, India

- **Tech Stack: React.js, Next.js, Redux, Hooks, Firebase, Cloudinary, Redux-Slice, Material-UI**
- Embarked on my professional journey as a Junior Frontend Developer at **Avrut Solutions** in Gujarat, India, where I honed my skills and gained valuable experience in **React.js and Next.js frameworks**. Contributed to various projects.
- Played a key role in crafting **responsive and visually appealing user interfaces**, ensuring seamless navigation and optimal user experiences. Translated design mockups into clean, semantic HTML/CSS code and implemented interactive features using JavaScript.
- Leveraged my foundational knowledge in **HTML, CSS, JavaScript, and TypeScript** to contribute to the development of sophisticated web solutions, collaborating closely with cross-functional teams.
- My experience at Avrut Solutions further honed my skills in frontend development, solidifying my proficiency in React.js and Next.js frameworks.

PROJECTS

Witit-Web

- The technology stack of the application includes **Next.js, Firebase, Redux-Slice, Tailwind, Material-UI, Stripe Payment**, with a secure register and login mechanism using Firebase.
- Integrated **JavaScript and TypeScript** for client-side interactivity and logic implementation, enabling a seamless user experience.
- Integrated Firebase services to manage backend functionalities such as authentication, real-time database, and storage, ensuring secure and scalable operations.
- **Image Generation: Users can generate images based on prompts provided**, leveraging trained models. This process incurs costs due to resource-intensive operations.

Vizu - Admin Panel

- The application uses a powerful and modern technology stack consisting of **Next.js, TypeScript, Material-UI, Tailwind, Supabase, Redux-Slice, Context API, and custom hooks**.
- Vizu Admin Panel is a robust management tool designed to streamline administrative tasks for efficiently managing various aspects of an application. Leveraging Supabase for authentication, it provides a secure environment for administrative operations. **The panel empowers administrators to effortlessly create, update, and delete categories and fields, facilitating smooth management within the application.**

TECHNICAL SKILLS

Technologies : HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Material-UI, Tailwind, Webpack

State Management Tools : Redux-Slice, React-Hook-Form, Context API

Dev Tools : Visual Studio Code, GitHub, Trello

EDUCATION

Jain University

Master of Computer Applications

External

Bangalore, India

2022 – 2024

Veer Narmad South Gujarat University

Bachelor of Computer Applications

Surat, Gujarat, India

2019 – 2022
